

PFAS Statement of Aven Inc.

Effective Date: December 1, 2023

Aven Inc. is committed to providing safe and sustainable products to our customers. As part of this commitment, we are actively engaged in understanding and addressing the potential risks associated with per- and polyfluoroalkyl substances (PFAS).

This statement outlines Aven's current knowledge and efforts regarding PFAS and their presence in our products and manufacturing processes.

1. PFAS Use:

To the best of our knowledge, PFAS are not intentionally used in any of our products or manufacturing processes. We continue to conduct a thorough review of our supply chain and materials, and we have not identified any sources of PFAS contamination.

2. Ongoing Assessment:

We are committed to continuous improvement and are actively engaged in ongoing efforts to further assess the potential presence of PFAS in our products and supply chain. This includes:

- Regularly reviewing and updating our materials and supplier information to identify any potential sources of PFAS.
- Working closely with our suppliers to ensure they are aware of our PFAS requirements and are taking steps to avoid PFAS contamination.
- Monitoring regulatory developments and industry best practices related to PFAS.

3. Transparency and Communication:

We are committed to providing transparency and communicating openly with our stakeholders about PFAS. This includes:

- Maintaining this PFAS statement and updating it as needed.
- Responding to inquiries from customers and stakeholders about PFAS.
- Engaging with regulatory agencies and industry organizations on PFAS issues.

4. Commitment to PFAS-Free Products:

We are committed to providing PFAS-free products to our customers. We will continue to work diligently to ensure that PFAS are not present in our products or manufacturing processes.

5. Disclaimer:

This statement is based on our current knowledge and understanding of PFAS. Due to the evolving nature of the science and regulations surrounding PFAS, we cannot guarantee that our products are completely free of PFAS contamination. However, we are committed to taking all reasonable steps to minimize the risk of PFAS exposure.

6. Contact:

For further information about PFAS and its use at Aven Inc., please contact us at 734-973-0099.

Thank you for your continued support.
